📍 Sydney

Senior Software Engineer • hello@richardeverley.com

Skills

Core: Node.js • TypeScript • React / Next.js • Kafka • Kubernetes • AWS • PostgreSQL • MongoDB • Docker • Jest

Additional: .NET / C# • Grafana • Angular • Vue • React Native • Appium • Svelte • Go • Python • Java • Swift • Three.js

Employment

FDJ United | Sydney, Australia

Senior Software Engineer (contract) | 2025 – Present

- Optimised the Sportsbook Betting Engine within a 5-engineer Performance Task Force, **increasing** throughput by more than **6x** and **reducing** P95 latency by **85%** through CPU profiling, cooperative yielding, DB round-trip optimisation, and Kubernetes tuning.
- Designed and delivered a Kafka benchmarking platform that sustained producer and consumer load tests exceeding **150,000 messages per second**, providing the performance evidence used to evaluate VM and Kubernetes deployment strategies.
- Co-established the Sportsbook iOS Appium automation framework with 2 engineers, aligning Product, QA, and engineering teams on automation strategy, delivering **45 end-to-end test scenarios** integrated into CI, and using Claude Code and MCP integrations to reduce test development time by **40%**.

- **Tech stack:** Claude Code • MCP • Kafka • Kubernetes • Node.js Profiler • React • Express.js • PostgreSQL • Grafana • Appium

Coates Group | Sydney, Australia

Senior Software Engineer (contract) | 2024 – 2025

- Led **5 engineers** within the **12-person** Market Adoption Squad while remaining hands-on in the delivery of McDonald's Digital Menu Board CMS, mentoring junior engineers and guiding technical design and architectural decisions.
- Architected the CMS platform's full-stack solution in collaboration with senior leadership, implementing frontend improvements that increased its Google Lighthouse score by **40 points**. The platform is now deployed across **15,000 locations** in the United States and Europe.

- **Tech stack:** Node.js • React • Express.js • MySQL • AWS Lambda • AWS DynamoDB • Jest • Micro-frontend architecture • GitLab

Qantas Airways | Sydney, Australia

Senior Software Engineer (contract) | 2022 – 2024

- Spearheaded development of a Next.js Customer Service Centre application used by **2,000+ employees daily**, consolidating **14 department-specific applications** into a single platform and eliminating the need for agents to navigate across multiple browser tabs.
- Delivered a full-stack internal marketing platform within a 5-engineer team, using **Preact** and **Express.js** to centralise the creation, management, and delivery of customer campaigns across **12** digital and communications channels, with **Jest-based** automated testing and **Akamai-powered** content delivery.

- **Tech stack:** Next.js • Preact • Express.js • AWS Lambda • AWS RDS • AWS Redshift • Jenkins • Terraform • Splunk • Jest • Ansible

SLIK Creative Agency | Sydney, Australia

Software Engineer | 2022

- Pioneered Australia's **first** metaverse virtual playground utilising **Three.js** and **Blender** for corporate gatherings and virtual meetings.
- Engineered static web applications using **Gatsby** for **Nine News**, including **The Sydney Morning Herald's** Annual Impact Report.
- Migrated a legacy email builder app from **Angular to React**, simplifying its frontend architecture and improving maintainability and UX.

- **Tech stack:** React • Gatsby • Node.js • Nest.js • MongoDB • AWS S3 • Contentful • Netlify • Heroku • Three.js • GSAP • Blender

New Zealand Government, Health NZ | Auckland, New Zealand

Software Engineer | 2021 – 2022

- Replaced manual status checks with an **Angular** and **.NET Core** monitoring application covering **3 hospitals**, reducing incident identification time by **90%**, from **5 minutes to 30 seconds**.
- Designed and built a bespoke **Redis management application**, giving admins a controlled interface for maintaining operational data.

- **Tech stack:** TypeScript • Node.js • React • Angular • C# • .NET • NgRx • Redis • Oracle SQL Database • Material UI • Azure DevOps

3 prior positions (2017 – 2021) available on personal website: richardeverley.com

Education

University of Sydney | Bachelor of Science (Honours) | Computer Science

- Academic Teaching Assistant for **SOFT2412: Agile Software Development Practices (Java)**
